

SYSTEMARDEX
PREMIUM PERFORMANCE

ARDEX AUSTRALIA

**LEADING THE WAY
THROUGH INNOVATION**

The Burj Khalifa, Dubai, UAE.

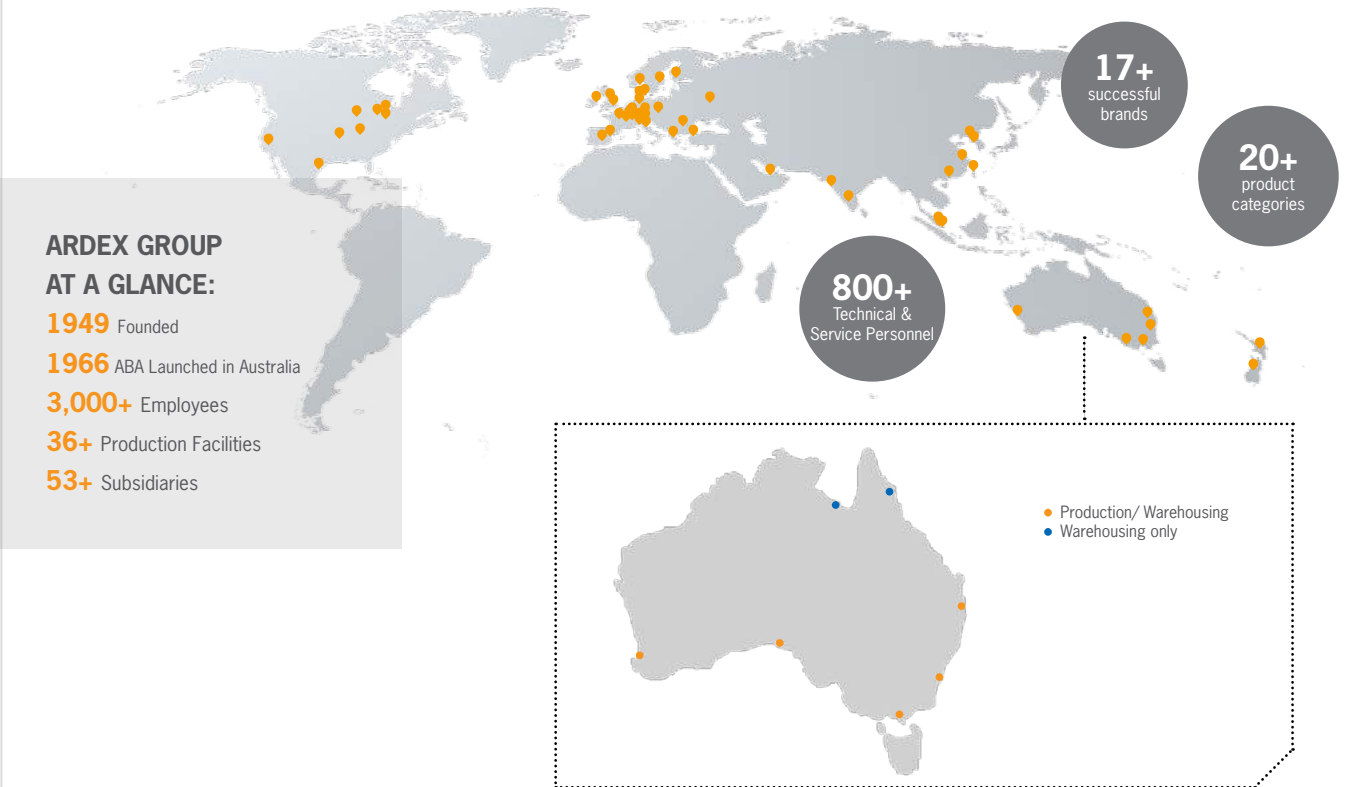

For more than 70 years, ARDEX has been the quality leader for an entire industry, offering engineered products and systems in the areas of: floor levelling and adhesives, tile and natural stone systems, sheet and liquid applied waterproofing membranes, general construction and decorative surfaces.

ARDEX system solutions have been making buildings better all over the world. From the Burj Khalifa in Dubai, the London Olympic Aquatic Centre, the Sydney Opera House and commercial and residential projects big and small. ARDEX systems provide reliability and support that are always tailored to the specific requirements of the project.

Strong growth and intelligent acquisitions in foreign and local markets enables the ARDEX Group to draw from a global pool of resources. This allows ARDEX to ultimately supply complete system solutions which include market leading, high quality products and services to its valued customers.

As one of the leading building material manufacturers, the ARDEX Group is represented in over 100 countries.

SYSTEM ARDEX

ARDEX is committed to developing products that are easy to use and offer high performance. ARDEX products are designed to work together for total reliability and performance. Each product is the careful result of research and development combining the input of contractors, specifiers and installers to ensure absolute product compatibility backed by a guarantee. This is System ARDEX.

TECHNICAL SUPPORT

ARDEX products are backed by a team of Technical Support Specialists and Field Professionals – dedicated to one goal – eliminating guesswork, improving onsite efficiencies and taking risk out of product and system installation.

ARDEX is committed to providing the highest level of technical support – from product training to customised system recommendations.

ARDEX have a dedicated team of technical experts to help you at any stage with:

- System recommendations
- Onsite assistance and demonstrations
- Complaint investigation

WARRANTY

ARDEX Australia prides itself on the extent of its warranty cover that provides peace of mind to owners and builders. The value of a manufacturer's product warranty or guarantee varies enormously and its value cannot be judged by the period it is valid for, but by what it covers during the period.

The ARDEX Australia Warranty covers the:

- Repair or replacement of the product PLUS;
- Costs of re-installation of the product PLUS;
- Costs of replacement of any immediate covering such as tiles or carpet.

All ARDEX products are covered by this Warranty; however, ARDEX can also provide on-request System ARDEX Warranties and Extended Warranties to ensure that all projects have the assurance they require.

As a longstanding partner to trade, we know the practical requirements first-hand. Our vast experience with materials and working methods and our constant dialogue with customers in the skilled trades are our most important source of inspiration. We draw on this to develop product systems that command respect in the market place. Our systems are optimally matched and extremely cost-effective thanks to their ease and speed of processing and high coverage.

moisture barriers.

HEALTH CARE

ARDEX Australia provides system solutions to create perfect substrates for floors and wet areas in healthcare facilities. As an industry leading, local manufacturer of cementitious floor levelling products, waterproofing membranes, moisture barriers and even water-based adhesives.

The ARDEX solution dramatically reduces the need for thick sand/cement screeds, lengthy drying times, and most of all, eliminates multiple safety hazards, crucial to any healthcare facility.

intricate mosaic work.

LEISURE

ARDEX Australia has a proven track record in providing systems that cater to the requirements of some of the most complex situations. From water parks to olympic pools, complete system solutions from substrate preparation, waterproofing and the installation of finished surfaces or coverings, ARDEX can provide customised specifications. This ensures leisure facilities are enjoyed and stand the test of time.

COMMERCIAL / RETAIL

ARDEX solutions are frequently used in the construction of complex retail and commercial developments. Whether it is a rapid setting system for fast turnaround, commercial strength adhesives and grouts for high traffic areas or uncoupling systems for retail environments. When contractors, builders or architects need help in assessing a situation or in selecting optimal systems, ARDEX support comes into play and the team is frequently on hand to provide around-the-clock, on-site advice for time-critical projects.

24/7 RESOURCES

ON-DEMAND SPECIFICATION TOOL

The ARDEX Specification Tool provides on-demand system solutions for waterproofing, flooring, remedial or tiling scenarios. Simply answer project specific questions and a complete system recommendation, including products and application methods, are provided for immediate download.

TILE ADHESIVE SELECTOR

This selector takes the guesswork out of choosing the best tile adhesive based on tile types and project substrates.

GROUT COLOUR SELECTOR

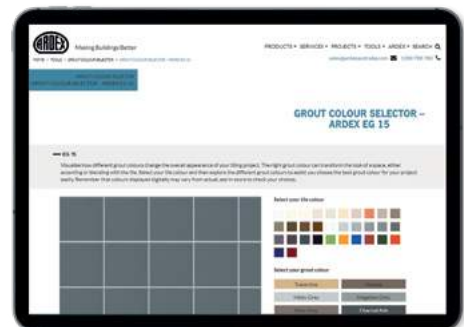

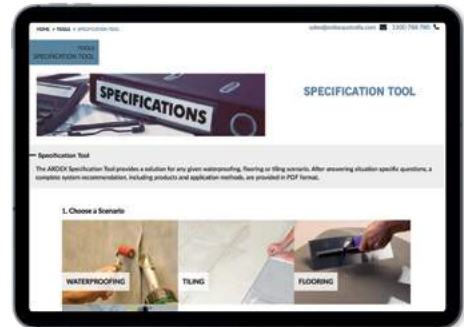

Visualise how ARDEX grouts match up to the colours of your chosen tiles by using the ARDEX online grout colour selector.

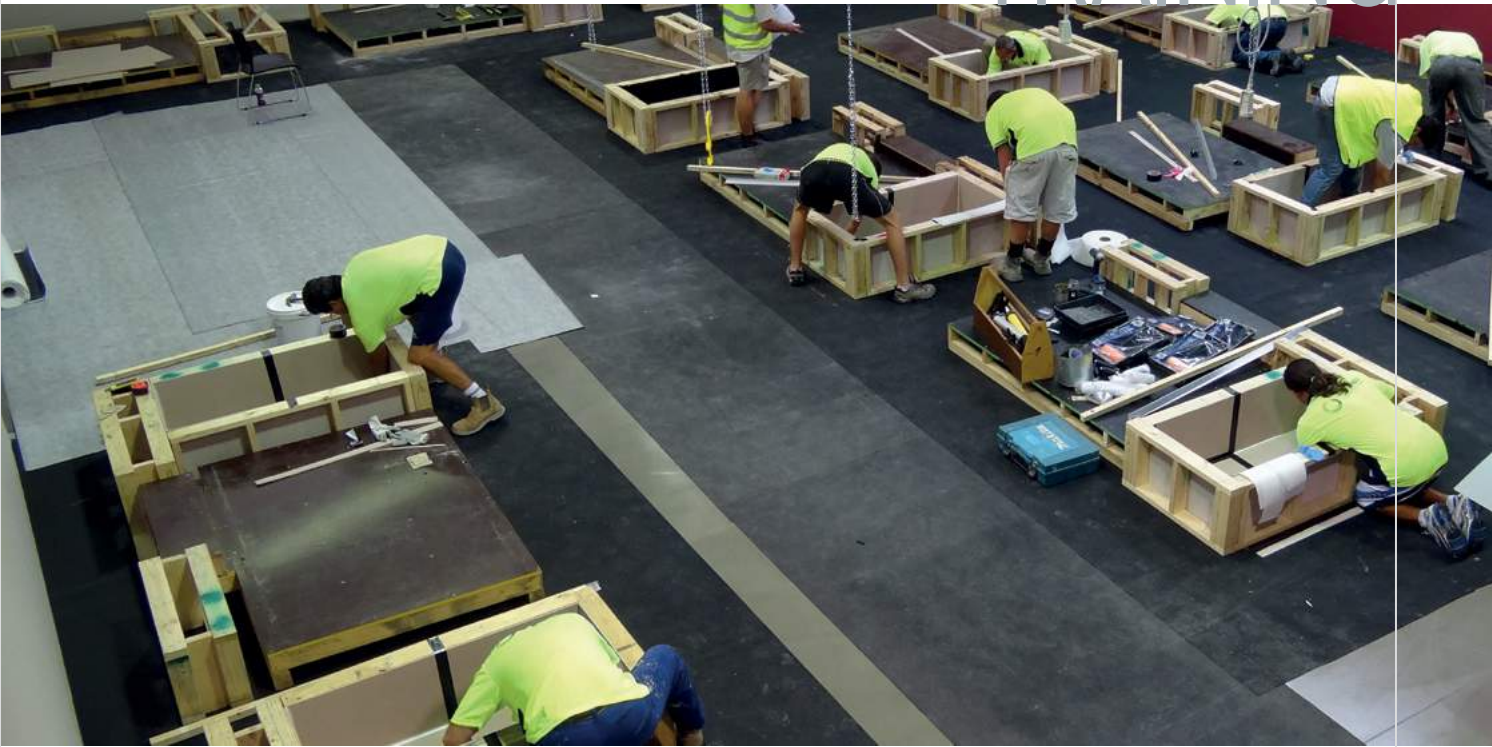

PRODUCT CALCULATORS

Never be caught short again. Find out the amount of material you will need for your project by using the instant online product calculator.

RESOURCES

From quick reference specification sheets, to product information papers and technical bulletins, ARDEX has a range of online resources designed to help you, no matter the size of the project.

ARDEXACADEMY

The building industry, like any other, requires on-going training to keep up with the changes in legislation/ standards and materials (tiles, concrete, substrates etc). ARDEX offers training for applicators as well as distributors and retailers of ARDEX product.

The idea of the ARDEXacademy is to permanently share knowledge and expertise with customers.

Training is carried out by an ARDEX team of technical experts who have extensive knowledge and practical experience of the tiling, flooring, waterproofing and general construction industry. There are many courses available that can be booked via the ARDEX Australia website, including:

- ARDEX Undertile Liquid Waterproofing Accreditation Training
- ARDEX Floor Levelling Training
- ARDEX Undertile Butynol Installation Training
- ARDEX Epoxy Grout Training
- ARDEX Retail Tile Training
- Training with TAFE NSW

CPD TRAINING

ARDEX is a certified provider by the Australian Institute of Architects for CPD training. ARDEX regularly holds CPD training allowing attendees to earn refuel points whilst learning valuable insights on key areas of interest.

ARDEX CORE CATEGORIES

CHOOSE YOUR SOLUTION

ARDEX offers a complete product offering, enabling customers to choose the right product based on their specific needs. From entry level products and workhorses through to benchmark premium products, solutions for all price and performance requirements are available.

CHOOSE YOUR SOLUTION

TILING SYSTEMS

ARDEX provides intelligent and trusted system solutions for every aspect of tiling, from mosaic to large format tiling. For tile and natural stone installations – indoors and outdoors – domestic and commercial projects, ARDEX tile and stone installation systems include products for levelling and preparing difficult substrates, under tile waterproofing, tile adhesives, cement and epoxy grouts, silicones, sealers and cleaners.

WATERPROOFING

For a complete building envelope solution to waterproofing and roofing membranes, ARDEX is your best choice. ARDEX waterproofing solutions are highly application specific. From basement waterproofing to façade membranes to green roofs to ARDEX WeldTec range of membranes, which represent the latest in waterproofing sheet technology roofing membranes, ARDEX have a range of liquid and sheet membranes to stand the test of time – and moisture. Non-failure in these areas, even under extreme conditions, is critical, which is why so many professionals rely on ARDEX.

FLOORING SYSTEMS

From the creators of ARDIT self levelling compounds, ARDEX Australia manufacture a range of high performing screeds, repair mortars, primers, moisture barriers, smoothing compounds, patching compounds, self levelling compounds and flooring adhesives for the installation of vinyl flooring, LVT, carpet, linoleum and timber flooring. Through the “Choose your solution” range, ARDEX Australia provides solutions for a wide variety of substrates and situations.

GENERAL CONSTRUCTION SYSTEMS

The ARDEX Concrete Repair Range uses high strength, rapid setting systems to repair concrete damage from hairline cracks right through to structural repairs. Offering a complete range of products including self-priming, anti-corrosive patch mortars, a high-flow micro concrete, sacrificial zinc anodes, primers, joint sealants, render, façade membrane coatings and more, these products are ideal for repairing holes, spalls and cracks in concrete, in internal and external situations as well as areas where heavy-duty vehicle traffic is anticipated. Once cured, the repaired area will reinstate the integrity of the concrete, guaranteeing a long-lasting and durable concrete repair solution.

DECORATIVE SURFACES

ARDEX Australia supplies a range of highly engineered decorative surfaces to provide you with various design options such as thin polished concrete floors, off form concrete walls, concrete resurfacing and coloured concrete finishes. Whether used for home design or commercial projects, ARDEX Australia provides decorative solutions which are used to open up a wealth of exclusive design options.
