

ARDEX WPM 1000

WELDTEC PRE-APPLIED TANKING MEMBRANE

ARDEX WPM 1000 is a fleece-lined waterproofing sheet membrane specially formulated for the direct adhesion of tiled systems or for other non-exposed use. ARDEX WPM 1000 is heat-welded at laps and seams to create a superior bond, consistent gauge and allow a quick installation.

Benefits

- Manufactured in New Zealand
- BRANZ Appraised (no.925)
- Heat welded laps and seams
- Excellent flexibility - no requirement for fillets or bond breakers
- WeldTec technology to create very strong, watertight laps and detailing
- Excellent water migration resistance
- Resistant to tearing, cracking, bubbling
- Fleece lined for greater adhesion

Use

For use as an external waterproofing membrane for directly adhered tiled surfaces or other non-exposed use.

Approved for use under ARDEX undertile drainage systems such as ARDEX UD 150.

Locations

- External undertile
- Domestic or commercial

Substrates

- Concrete
- Plywood
- CFC Sheet
- Timber
- Closed-cell polyurethane foam
- Paper-faced plasterboard
- Domestic or commercial

Size

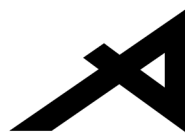

Roll of 1.4m x 20m (28m²) with a gauge of 1mm.

Packaging

Roll
