ARDEX RP 4

Flexible Pointing Compound for use with Hip and Ridge Roof Tiles

DESCRIPTION

Flexible pointing compound to use with hip and ridge roof tiles. ARDEX RP 4 is an adhesive mechanical fastener for hip and ridge tiles, surpassing relevant Australian standards. ARDEX RP 4 achieves C4 classification for approved use in cyclonic regions (independently tested against AS4046.8.2006 wind class C4).

BEFORE USE

All bedding material should be laid in accordance with AS2050 (Installation of Roof Tiles) and allowed to air cure until set, before application of tile pointing can commence. During the bedding process, create a groove in the bedding material under the ridge tile, this will enhance the mechanical bond of ARDEX RP 4. Stir lightly before use and periodically through application to avoid skinning of the material. Curing times will vary with ambient conditions. Curing times will be slower below 10°C and will skin quickly in higher temperatures over 30°C.

PREPARATION

Ensure surfaces are clean and free of any loose or contaminating material including bedding material.

APPLICATION

1. Apply pointing material at a thickness of 3-5mm ensuring full contact with edge of the ridge cap.
2. Achieve a smooth finish with pointing trowel. Do not use a sponge or brush.
3. Ensure application is in accordance with the tile being installed and the application environment.
4. ARDEX RP 4 will require at least 2 hours to cure before it will withstand any rain.
5. **IMPORTANT:** Wash off excess material with damp cloth. Dried material will be difficult to remove.
6. After use, ARDEX RP 4 may be stored for future use however cover with plastic sheet to prevent it from skinning.

DRYING TIMES

Curing times will vary with ambient conditions. Cold (below 10°C), damp or humid conditions may lengthen the drying time. Hot windy conditions can significantly shorten drying/working time and the product will skin quickly in higher temperatures over 30°C. Allow 24 hours to cure should painting be required.

PACKAGING

ARDEX RP 4 is packed in a 10L pail.

COVERAGE

Depending on application technique, 10L of ARDEX RP 4 will cover approximately 20-22 lineal metres of ridding.

SHELF LIFE

ARDEX RP 4 has a shelf life of 18 months when stored in the original, unopened packaging in a dry place at 23°C and 50% relative humidity.

CLEAN UP

Wash tools in warm water. Dispose of product and packaging in accordance with local authority guidelines.

Pay attention to the following:

Never add water to ARDEX RP 4. Instead, restir periodically through application. When not in use, replace lid on bucket of ARDEX RP 4.

SAFETY DATA

Avoid contact with skin and eyes; in case of contact with the eyes, wash out immediately with fresh running water. If irritation continues, seek medical attention. Wear protective gloves, clothing, face and eye protection. Avoid inhaling dust/fumes/gas/mist/vapours/spray. Ensure adequate ventilation during mixing and application. Check with your local Council regarding the disposal of contents. Keep out of the reach of children. Call the Poisons Information Centre on 131 126 (AUS) and 0800 764 766 (NZ) or call a doctor if you feel unwell. Additional information is in the Safety Data Sheet (SDS) at www.ardexaustralia.com
